Typical Mounting: 1/4” glass or plastic

AS004693-XX Cabinet Lock

Glass Door Cam Lock
Cabinet Locks

A simple solution to securing glass cabinet doors, the cam lock mounts through a hole in the glass. It is kept from rotating with a key pull, and a cam engages in a drive slide with a release pin. MWSPI exclusive design is also available in Abloy, and CompX versions. A door catch and mounting hardware is included.

Applications:
- Cabinets
- Showcases

Part Numbers:
- AS005497-XX, 5 pins, 1 Keypull

Typical Mounting:
- 1/4" glass or plastic
